

Simply ID Signature Module Installation Tips

Simply ID® Software

Existing Users:

***IF YOU ALREADY HAVE SIMPLY ID INSTALLED CLICK HELP/ABOUT AND CLICK ENTER SERIAL # AND ENTER THE SERIAL # PROVIDED ABOVE. THE LETTERS ARE CAP SENSITIVE.**

*** SKIP TO THE SIGNATURE PAD CD INSTALLATION BELOW.**

New Users:

*Open the Simply ID box and read the Simple Tips Installation Guide Manual.

*Insert the Simply ID software CD into your CD Drive.

*Follow the installation Instructions. Your serial # is located on the front of the Simple Tips Manual.

*Finish installing the software.

E-Pad Signature Pad

*Insert the Signature Software CD into your CD Drive. It will walk you through the setup process.

*** YOU MUST CHECK INSTALL WINTAB EMULATOR DURING INSTALL IN ORDER FOR THIS TO WORK WITH SIMPLY ID.**

*Once installed, you may need to reboot the computer or follow instructions from installation. Once the computer is fully rebooted, plug the signature pad into the USB slot in your computer. Windows will automatically detect the signature pad then follow the Windows instructions.

*Go to the control panel in Windows XP choose **Printers and other Hardware**. Click on the **IEWINTABEMU**. Click **Open Specific Device**, Click ok. **(THIS SPEEDS UP THE CAPTURE IN SIMPLY ID SO IF YOU SEE IT SLUGGISH WHEN CALLING UP THE SIGNATURE PAD THIS IS WHY).**

*Using the signature pad by going to the picture viewer and right clicking Pic 1,2 or 3 and click on signature pad. We recommend using Pic 2 for the signature if you will be using Pic 1 for the record photo.

*If you need updated drivers for Windows XP or other support for this device visit www.interlinkelectronics.com or www.simplyid.com.

Note: Please read the Simple Tips Installation Guide before attempting to operate the entire system.
